

Global reach of citing research

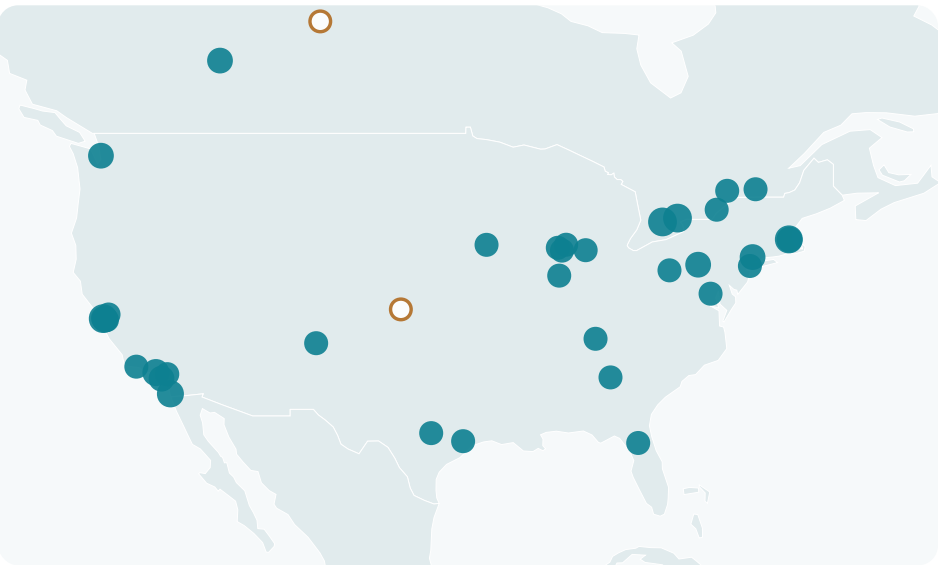

Sambhav R. Jain · Google Scholar citation survey · 7 October 2026

29 countries / territories

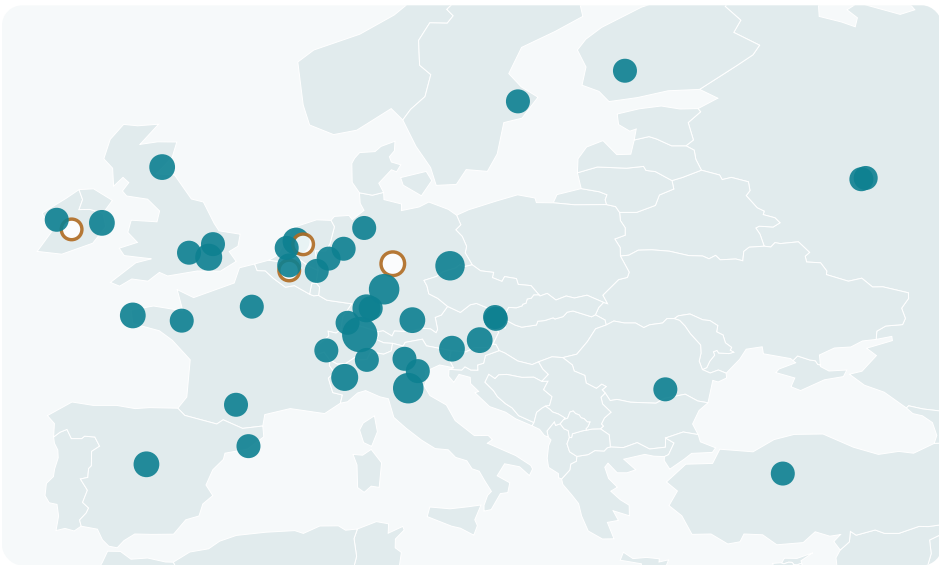

146 citing works with sourced affiliations

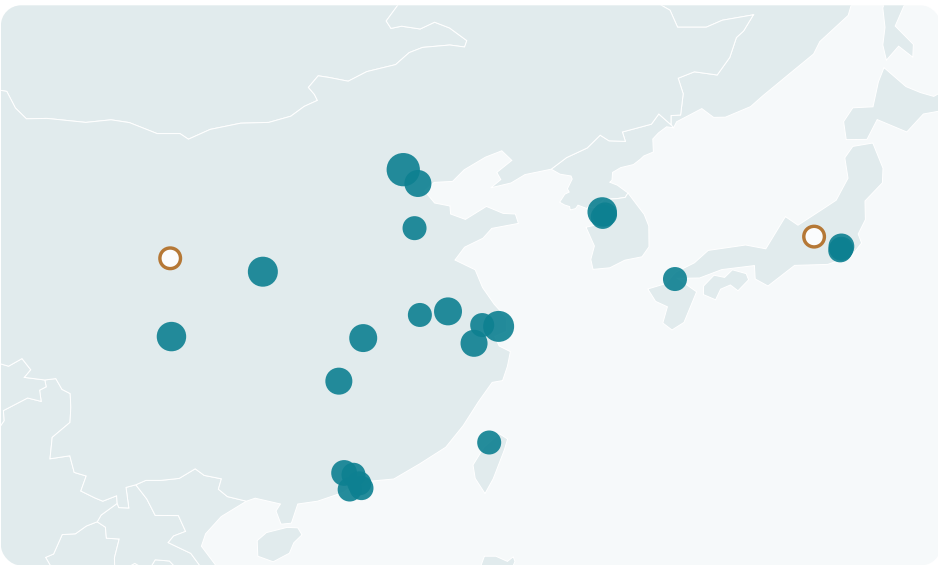

North America

Europe

East Asia

157 institution/location entries · 123 city/country display groups · 146 of 323 included works mapped

Solid: publication or verified institution city. Hollow: country-only affiliation. Larger dots indicate more citing works.

Survey snapshot: 354 profile citations · 337 retrieved Scholar records · 323 included works · 146 mapped citing works.

Publication affiliations document geographic reach, including coauthor/employer-linked works. See the report for article-specific contributions.

Source: archived Scholar results + publication affiliation pages + ROR geography. Map geometry: Natural Earth. See the interactive map and source ledger.
